Experience Summary

Test Lead

- Implemented improved testing procedures to mitigate issues and enhance overall quality.
- Reassessed quality control measures at a systemic level to proactively identify and address non-conformances.
- Led end-to-end testing efforts to ensure product effectiveness, alignment with design specifications, and adaptability for various use cases.
- Developed and revised policies and procedures to comprehensively address testing deficiencies.
- Led process improvement initiatives, providing strategic direction and leadership to optimize testing efficiency.
- Monitored and managed bug resolutions, validated fixes, and collaborated with developers to ensure defect-free releases.
- Evaluated functional performance and design compliance of products against industry standards and customer expectations.
- Documented testing procedures to establish best practices and ensure knowledge transfer for future testing cycles.
- Developed and maintained defect databases to track known issues and streamline bug resolution.

Senior Software Test Engineer

- Extensive experience in Functional Testing and Test Automation across Web, Mobile Applications, and APIs.
- Hands-on expertise in end-to-end testing including Functional, Regression, System Integration, User Acceptance, and Smoke Testing.
- Proficient in handling web elements, dynamic objects, XPath identification, and CSS locators for automated UI testing.
- Strong expertise in mobile automation testing using Appium, including locating XPaths and automating mobile applications.
- Conducted compatibility and consistency testing across multiple devices, screen sizes, and OS versions.
- Experienced in cross-device testing using BrowserStack for ensuring seamless application performance across platforms.

Software Test Engineer

- Conducted requirement analysis with business teams to derive comprehensive test scenarios and ensure effective test coverage.
- Assessed the impact of Change Requests (CRs) and new enhancements to efficiently manage regression testing.
- Hands-on experience in Functional and Exploratory Testing across Web and Mobile applications.
- Developed automated API test suites using custom frameworks, zero-code solutions, and tools like Postman.
- Extensive experience in UI test automation, building robust automated test scripts for web applications.
- Conducted detailed defect analysis, debugging test runs, and ensuring stable execution of test pipelines.
- Strong understanding of Agile methodologies, actively contributing to Scrum teams for iterative development and testing.
- Effective communicator with strong interpersonal skills, providing clear project updates, test reports, dashboards, and stakeholder communication..

Skills Summary

Technical Skills	Test Planning & Strategy, Test Case Design, Test Automation, API Testing, Defect Management, Test Data Management, Risk Analysis, Impact Analysis and Defect Analysis
Leadership & Management	Risk Management, Project Management, Team Management, Stakeholder Communication, Conflict Resolution, Agile & Scrum Practices
Programming Language / Database / Scripting Technical Skills	Core Java, Postman, Selenium Webdriver
Test Automation tools & Frameworks	UI Test Automation (Web & Mobile), Selenium, TestNG, Junit, Custom Test Automation Frameworks, BDD, ZeroCode Framework API Testing.
Build and configuration management	Maven, Gradle, GIT, Bit bucket
Defect/Project Management Tool	JIRA, Asana
Others	Jenkins, Allure, IntelliJ IDE

Professional Experience

Company : Qapitol QA Services Pvt Ltd)

Role : Test Lead

Client : Apanclub | February 2022 - Present

- Spearheaded testing efforts for B2B e-commerce platforms across Web, API, and Mobile domains.
- Implemented comprehensive testing strategies, reducing defects by 30%.
- Developed and maintained a robust automation framework tailored for cross-platform testing.

Role : Senior Software Test Engineer

Client : IDS | February 2021- February 2022

- Conducted end-to-end testing for leasing domain web applications.
- Automated 600+ test cases, ensuring efficient and repeatable test cycles.
- Collaborated with global teams to resolve critical integration challenges.

Role : Software Test Engineer

Client : Ford | February 2020 - February 2021

- Delivered high-quality ride-hailing services through rigorous web application testing.
- Reduced regression testing time by 20% by implementing a hybrid automation framework.

Company : Autosense India Pvt Ltd

Role : QA Engineer

Client : Mahindra and Mahindra | November 2019 - February 2020

- Conducted functional and integration testing for automobile IoT web applications.
- Enhanced test accuracy and efficiency by implementing data-driven testing strategies.

Company : Parexel International

Role : Associate Software Test Engineer

Project : Clintel 4 | July 2018 -October 2019

- Performed manual testing for clinical trial management systems.

- Collaborated with stakeholders to ensure compliance with industry standards.

Company : Experis IT Pvt Ltd

Role : Software Test Engineer - Trainee

Client : AT&T | July 2017 - July 2018

- Gained hands-on experience in telecom web application testing.
- Contributed to the development of reusable test cases for regression testing.

-
- Bachelor's Degree in Electronics and Communication Engineering
Holymary Institute of Technology and Sciences (JNTU Hyderabad) , 2016

Declaration

I hereby certify that the information provided in this resume is true and accurate to the best of my knowledge.
